Professional Summary

Results-driven Frontend Developer with over 1 year of hands-on experience building scalable, responsive web applications in the healthcare domain. Proficient in React.js, Next.js, TypeScript, Redux Toolkit, and REST API integration. Experienced in full-stack development with Node.js, Express.js, and MongoDB. Passionate about delivering clean, performant UI and collaborating in agile environments to ship production-grade features.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Angular.js, Tailwind CSS, Bootstrap
State Management: Redux Toolkit, RTK Query, Context API
UI & Design: Responsive UI Development, Material UI, Figma (Basic)
Backend: Node.js, Express.js, REST API Integration, JWT Authentication
Database: MongoDB, MySQL
Tools & Platforms: Git, GitHub, VS Code, Postman, Cursor AI, Lovable, Replit, Vercel, Netlify
Testing: Manual Testing, API Testing (Postman)
Programming: JavaScript, TypeScript, Java, Python

Professional Experience

Associate Software Developer – Front-End Dec 2024 – Sep 2025
DataTerrain India Private Limited *Chennai, Tamil Nadu*

- Engineered scalable, responsive UI components using React.js and TypeScript, improving page load performance and UI consistency across multiple healthcare modules.
- Implemented efficient state management with Redux Toolkit and RTK Query, reducing redundant API calls and improving data-fetching performance by eliminating unnecessary re-renders.
- Integrated frontend components with RESTful APIs, implementing robust handling for loading, error, and success states to ensure seamless user experience.
- Collaborated in agile cross-functional teams to successfully deliver 5+ healthcare web applications within deadlines.
- Participated in code reviews, sprint planning, and daily stand-ups, contributing to team productivity and maintaining code quality standards.

On-site Frontend Intern Feb 2024 – Sep 2024
IWAYY Technology Solutions *Vaniyambadi, Tamil Nadu*

- Engineered and expanded 4+ modules for an Employee Payroll Management System using HTML, CSS, JavaScript, PHP, and MySQL, supporting payroll workflows for 10+ employees.
- Enhanced 3+ UI modules and streamlined backend data handling workflows, reducing manual processing time and gaining hands-on experience in a real-world SaaS product environment.

Projects

Full-Stack E-Commerce Application – *Next.js, Node.js, Express.js, MongoDB, JWT* 2025

- Built a production-ready full-stack e-commerce platform with Next.js for server-side rendering and Node.js/Express.js for backend API services.
- Implemented secure user authentication and role-based authorization using JWT tokens.
- Designed and developed RESTful APIs for product catalog, shopping cart, and order management workflows.
- Integrated MongoDB for flexible data storage and optimized queries for performance.

E-Commerce Website – Final Year Project – *HTML, CSS, JavaScript, PHP, MySQL* Feb 2024 – May 2024

- Crafted a dynamic e-commerce website with full CRUD operations, product listings, and user session management.
- Designed a relational MySQL database schema for products, users, and orders.
